- ARD Rep W

TERRAZO

A seamless coating comprising various materials where all components are blended to create a highly resistant covering.

This system is applied in a thin layer and can now be used for walls, floor coverings and even on furniture.

- Resin Terrazo
- Cement Terrazo

RESIN

A system which is made of modified polymers, and is developed for 1-3 mm thickness self-leveling coatings. It is a two and three components product which is available in 2K version (two components) or 3K version (three components) depending on the needs. The products are supplied in neutral version, and they can be pigmented adding coloring pastes.

- Autopava 3K
- Pavaglass

CASTING RESIN

A Polymeric-modified epoxy transparent resin, two-components, solvent-free, long pot-life, with U.V. filters additive. Transparent coating for very high thickness for decorative effects up to 5 cm thickness.

- Aquarius
